PRODUCT CONTENTS

1. Delivery Bag (1pc)
2. Internal Plastic Frame (20pcs)
3. Internal Velcro Divider (1pc)
4. Internal Hard Base (1pc)
5. Metal Fitting Plate (1pc)
6. S Hooks (4pcs)
7. Zip Ties (6pcs)

STEP 1

Build the internal plastic frame and then make sure the internal hard base are fitted inside the bag.

Plastic frame consists of 8 x corner connectors, 4 x uprights, 4 x long length & 4 x width length (Total of 20pcs)

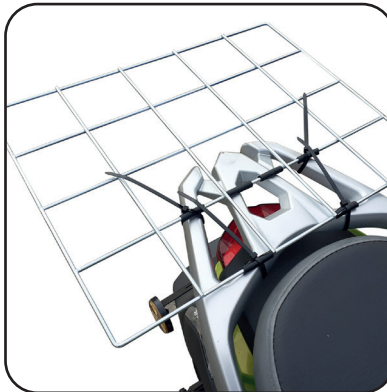

STEP 2

Use the small velcro straps within the bag to secure the plastic frame too.

Internal velcro divider helps to separate hot and cold items and can be removed with the velcro for larger items.

STEP 3

Attach universal fitting plate to rear of carrier (recommended) with the zip ties provided (Colour may vary).

Once secure trim zip ties down so not to damage the underneath of bag.

Removable shoulder strap when in transit.

STEP 4

Now the universal fitting plate has been fitted place the bag on the fitting plate and use the 4 x web buckle straps to secure the bag by looping under the fitting plate and then back up on the outside of fitting plate and clip in place. Adjust the straps to hold in place (Please make sure to do this on both sides of the bag).

The bag is now ready to use.
