WELCOME TO THE BIKE IT  
**2021 ROAD ACCESSORIES  
& APPAREL**  
CATALOGUE

This season we have separated our extensive ranges across three separate catalogues, ROAD PARTS & SERVICING, ROAD ACCESSORIES & APPAREL, and OFF ROAD.

***Our commitment to you – delivering quality motorcycle accessories and excellent service.***

With a history in the motorcycle industry now spanning five decades, Bike It has grown and developed into one of the UK and Europe's leading trade distribution businesses, delivering products that have established and enabled both motorcycle dealers and online retailers to flourish in this challenging industry.

Bike It's portfolio of general rider accessories and universal motorcycle products has further extended under in-house brands including ***Airblade / Armadillo / Armstrong / Biketek / GP-PRO / Mammoth / ProAir / Triple-S / Viper***. The Bike It portfolio is being used also as the selling platform by many brand partners looking for efficient and successful routes to market for their own products. In 2021 Bike It are pleased to include within our brand partnerships; ***Airoh / AP Racing / Bananaz / Battery Tender / Dainese / Dynavolt / EzGo / Foggy / GSB / Intact Batteries / Just1 / Koyo / Liqui Moly / Midland / MotoGP / NGK / NTN / ProClean / Rema TipTop / SHOT / SkyRich / Swift / Tirox / TruTension / Twiins***.

Operating from a head office and 100,000 sq.ft distribution centre in Southampton, Bike It's customer network spreads across the UK served by a committed team of Field-Account Managers and in excess of 60 sales agents across Europe.

***Our revamped B2B WEBSITE [www.bikeittrade.com](http://www.bikeittrade.com)*** has been specifically developed for our dealer network to simplify product selection and increase order efficiency. With more than 15,000 SKU's and 30 brands, the B2B site makes the full and latest Bike It product range easily viewable and accessible to our customers, creating a resource which dealers can use daily to quickly identify product, build baskets and submit orders efficiently.

Product categorization has been fully restructured and simplified between ***ROAD*** and ***OFFROAD*** products, also by ***SERVICING PARTS*** and ***ACCESSORIES***, making navigation around the site simpler and more effective.

Utilising the ***NUMBER PLATE LOOKUP*** and ***VEHICLE SELECTION*** functions, dealers can speedily find all products relevant to a specific motorcycle, allowing them to prepare for scheduled workshop services and repairs.

With dedicated Downloads and News & Reviews areas, our dealers can keep fully updated on new products and updates as they are released. Ask you Account Manager today for a presentation and demonstration.

### RACE SERIES TRACK & Paddock STANDS

MotoGP Race series track and paddock stands are essential for race and track days. The stands elevate the bike for ground clearance to remove wheels and improve access for repairs, bike set-up and to fit and remove tyre warmers. MotoGP stands are constructed from 32mm tube, fully reinforced for extra strength, finished in durable black powder coating with PU ground-stops on the underside of the handle for easier handle access and improved contact grip.

**Rear stands:** are supplied complete with spring loaded swingarm adaptors.

**Front stands:** are supplied with under fork adaptors.

**FRONT - Single**

Order Code: **MGPSTD02**

**REAR - Single**

Order Code: **MGPSTD01**

**FRONT & REAR - Set**

Order Code: **MGPSTD03**

NB - Front paddock stands should always be used in conjunction with a rear stand.

### BOBBIN HOOK ADAPTORS

Pair of bobbin hook adaptors replace standard cup adaptors, allowing you to lift the bike by the bobbins instead of swing arms.

Order Code: **PDSHOOK**

### PRO SERIES PREMIUM 1PC Paddock STANDS

**RIDE Magazine 'BEST BUY'**  
Front stands include a self-levelling zinc-coated under-fork hardware kit.

**FRONT**  
Order Code: **MGPSTD05**

NB - Front paddock stands should always be used in conjunction with a rear stand.

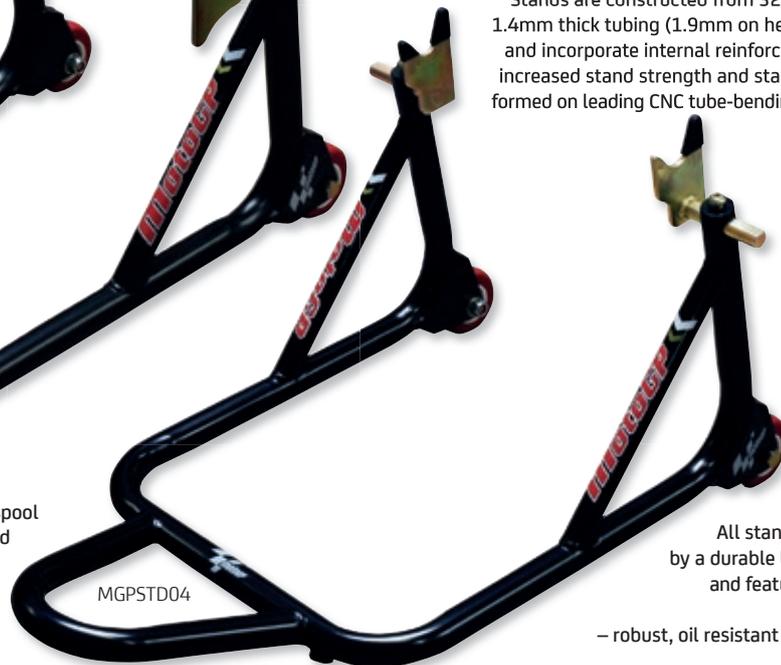

MotoGP Premium Pro series stands are manufactured from continuous uncut tubing, supplied as a ready-to-use stand requiring no self assembly of tube sections. This superior design and production minimises potential weakening and movement of the stand, compared to conventional multi-part self-assembly paddock stands.

Stands are constructed from 32mm cold rolled steel, 1.4mm thick tubing (1.9mm on headlift upper section), and incorporate internal reinforcement steel plugs for increased stand strength and stability. All tube work is formed on leading CNC tube-bending machines ensuring optimum accuracy.

Rear stands include a lockable zinc-coated bobbin-spool hardware kit for quick and effective lifting. The stand can be adjusted and is suitable for all the latest sportbikes.

**REAR**  
Order Code: **MGPSTD04**

All stands are complimented by a durable black powder-coating, and feature injection moulded polyurethane wheels – robust, oil resistant and offering efficient grip and movement.

### PRO SERIES HEADSTAND

MotoGP Pro series headstands include a selection of five headlift pins\* suitable for the majority of today's sportbikes.

\* 13mm / 15mm / 16.5mm / 17mm / 18mm

### PRO SERIES TYRE WARMER

Official MotoGP Pro series tyre warmer set, includes front and rear warmers.

Self fitting elasticated sides offer a snug fit and uniform heat distribution. Warmers heat to a thermostatically controlled 80 degree Celsius for optimum tyre temperature, and retain that setting until warmers are removed or switched off.

LED indicators clearly show when the warmers are heating or the thermostat is at the maximum temperature setting. Supplied with storage bag.

Easy view

### PRO SERIES DIGITAL TYRE WARMERS

Digitally controlled tyre warmer kit for optimum tyre preparation.

Both the front and rear warmers feature encased digital thermostat units which allow the user to manually input a desired temperature for the warmer to maintain.

The resulting advantage over standard tyre warmers is being able to heat the warmer to a higher or lower temperature according to weather conditions and time restraints, plus more accurate and easy to read data.

Features:

- LCD display for easy reading
- Power indicator light
- Temperature setting from 40-99 degree Celsius
- Real time temperature reading during heating

## LASER MONKEY

Laser Monkey by Tru-Tension is an innovative laser alignment tool designed to ensure precise and quick setting of the drive wheel on a motorcycle. Ensuring your wheel is aligned accurately now couldn't be simpler!

The unique Laser Monkey design uses the sprocket or pulley of the motorcycle to send a laser directly down the centre of the chain/belt, ensuring fast and easy wheel alignment. Precise alignment of the wheel ensures prolonged life of moving components to save you money, coupled with improved handling characteristics and optimised power delivery. Simply adjust the rear wheel until the laser is aligned with the centre of the front sprocket and your wheel will be aligned with precision.

Order Code: **TRU018**

## CHAIN MONKEY

Chain Monkey is the world's first tool designed to help you set the tension on your motorcycle's drive chain. The task of tensioning a chain can be a tedious and time consuming task, especially on motorcycles. But not anymore.

By using Chain Monkey, anyone can set their chain tension quickly, easily and with minimal knowledge required. From new riders through to experienced mechanics.

BikeTek Front and Rear Paddock Stands allow easy and safe lifting of wheels for most repair and maintenance jobs. Extra heavy duty construction, these stands are available in red finish, supplied with front under-fork or rear swing-arm cup adaptors. A bobbin hook kit is available for rear stands.

Series 3 paddock stands utilise a unique design to create a sturdier and stronger stand, the revised handle shape offers better handling for lifting motorcycles.

**Features:**

- Spring loaded quick release under fork and cup adaptors
- HD oil resistant wheels
- Protective rubber base bungs

## ALUMINIUM PADDOCK STANDS

The BikeTek Aluminium Race Paddock Stands are manufactured from ultra lightweight aluminium over-sized tubing offering a robust and sturdy build quality. Rear stands are supplied with bobbin fork mounts which are width adjustable to fit all twin swing-arm motorcycles, the mounts are lockable by means of integral allen head bolts. Suitable for all motorcycles fitted with swing arm bobbins / cotton reels.

Front stands are 1 piece construction, which can be height adjusted. Interchangeable pins allow for use on bikes with split level forks. These are serious upgrades from standard steel paddock stands! The locking bobbin fork mounts and light weight make it especially suited for track and paddock use where speed and ease of use is essential.

## FRONT HEAD STAND

The BikeTek front head stand folds out to enable a motorcycle to be lifted by the frontsteering head tube. This offers maximum access to the front end for all repair, cleaning and maintenance work. Each stand is supplied with a kit of 5 of the most popular sized head lift pins covering 90% of motorcycles (including 13mm, 15mm, 16.5mm, 17mm and 18mm). Other larger size pins are available separately. Pins are easily and quickly changeable, making the stand extremely versatile across a wide range of bikes.

## STATIC REAR STAND

This rear stand from BikeTek offers a unique method of motorcycle storage, especially suited for dealership displays and long term private home storage. A 9mm steel support bar is inserted through the rear wheel axle, which is then secured to the stand body. The bike is pushed backwards and raises into position on the stand. Cleaning and maintenance work can be carried out when the bike is mounted on the stand (except for tasks that involve removal of the rear wheel). Front paddock stands can still be used in conjunction with the BikeTek static stand. Manufactured from 1.4mm steel, 23mm diameter tubing, the stand is a 1pc unit requiring no assembly and offering optimum strength and rigidity. Finished in durable powder-coating and with protective ground-contact bungs.

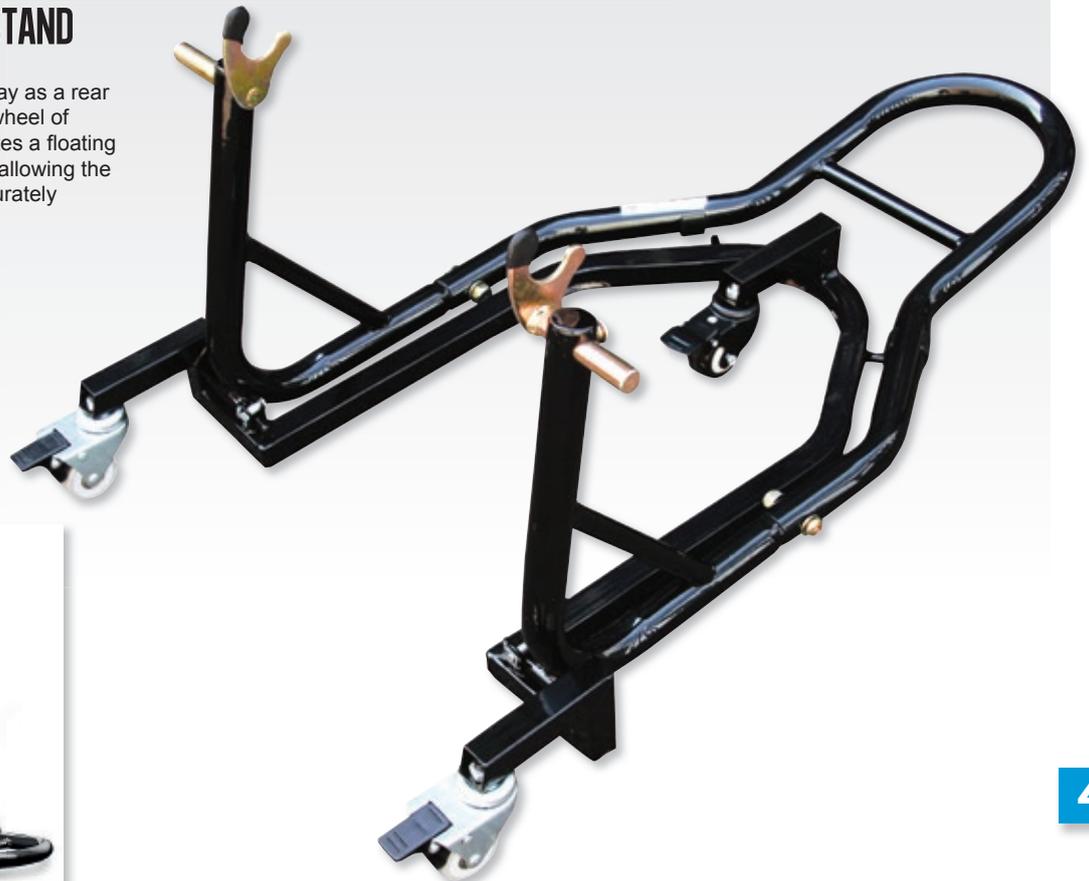

Order Code: **PDSR014**

## 360° REAR FLOATING STAND

This device works in the same way as a rear paddock stand to raise the rear wheel of motorbikes. The stand incorporates a floating dolly set on 360° swivel castors, allowing the bike to be moved easily and accurately sideways and diagonally.

Order Code: **PDSR024**

### SERIES 3 SIDE PADDOCK STANDS

Biketek Series 3 side paddock stands utilize an adaptor pin which locates in the rear wheel axle. Connects the motorcycle from the left or right side (depending on motorcycle model) allowing the rear wheel to be raised off the floor for general maintenance and repair work. Stainless Steel tubing for stability and strength. Heavy duty oil resistant wheels.

NB – side paddock stands are NOT intended for longterm storage of motorcycles

<b>TIM012</b>	Spare Receiver Module

Complete Set  
TIM011

The receiver should be mounted to the vehicle in an appropriate position which does not interfere with vehicle functioning (self-adhesive Velcro mount included).

When the receiver (fitted to the vehicle) passes by the IR transmitter (left in a suitable location such as pitwall) the lap number is displayed and time is recorded, building up data of lap splits.

If multiple BikeTek lap timers are in use in the same session, just one transmitter should be used (ensure no more than one transmitter is in use).

It is the user's responsibility to ensure that lap timing devices are authorised for use at the track/circuit.

# GP550 S

RACE - READY

The eagerly anticipated GP550S is here, redefining performance levels on the track and road. Created and developed in the Airoh wind tunnel with expert race knowledge and extensively tested by top flight riders including the current MotoGP and WSBK support classes, GP550S delivers track performance without compromising comfort or practicality.

Innovative rear spoilers created in the wind tunnel provide optimum stability and aerodynamics at high speeds, the internal channelling creating effective air extraction for rider comfort.

3 shells sizes ensure optimum fitment for all head-shapes, crafted from HPC (High Performance Composite), 8-point air venting for optimal ventilation, removable Stop-Wind. A.E.F.R (Airoh Emergency Fast Release) system for quick and safe removal of cheek pads in an emergency. Tear-Off ready visor with Pinlock lens included, fully homologated with 50% light-smoke tint

A true race helmet for track and road.

# VALOR

RULEZ THE STREET

With strong, angular and aggressive lines, Valor represents the starting point for demanding motorcyclists searching for a race-inspired helmet.

The HRT (High Resistant Thermoplastic) shell is developed in two sizes to perfectly adapt to all head-shapes. Modelled on aerodynamics at speed, with graphics to emphasise dynamism and personality. 5-star SHARP rating, 8-zone integrated ventilation system, Pinlock Ready extra-wide visor, hypoallergenic liners and removable Stop-Wind compliment this value-packed model.

## ST-301

FULL - FACE

It's always time to ride with the ST 301, a full-face helmet designed to withstand every road condition, both for touring and racing. The combination of materials and technologies guarantees maximum levels of safety, protection and comfort.

The High Resistant Thermoplastic (HRT) shell provides a high level of protection with a low weight of 1470g, whilst the ventilation system provides optimal coolness.

The ST 301 is ready for any challenge that nature can throw its way thanks to the retractable sun visor, the position of the visor that prevents internal fogging, the wide field of vision to monitor the road and increase active safety, the Stop Wind system and the Pinlock® lens.

## REPLACEMENT VISOR

Original replacement visors for the Airoh range of road helmets.  
Please note that 'clear' visor is legal for public road use.  
All other colours of visor are for track use only.

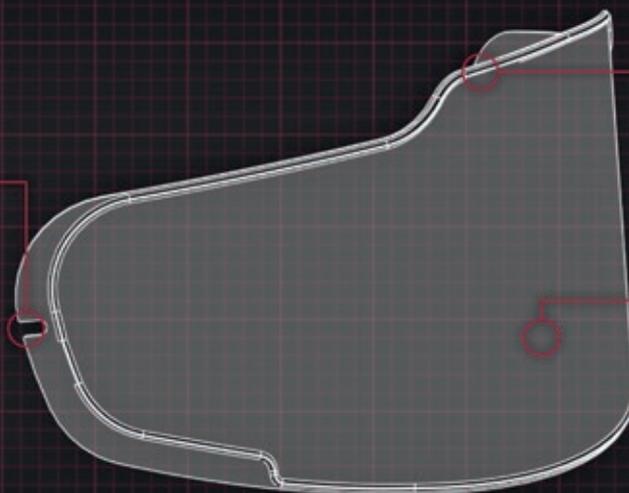

Pinlock is well known for its patented anti-fog technology in the global market and is expanding.

**“GO FAST, GO SAFE”**

**SLIT**

The slit keeps the insert lens steady and tight between the face shield and pin.

**SILICONE SEAL**

Creates a double shield system between the helmet face shield and Pinlock insert lens.

**DRY HYDROPHILIC TECHNOLOGY**

Dry hydrophilic technology like membrane surface that absorbs moisture.

## LENS SPECS

### PINLOCK 30

The Pinlock 30 is our entry level fog resistant solution that offers efficient clear vision while riding.

Designed to be the universal fog resistant solution for helmets, The Pinlock 30 insert lens fits all Pinlock 30 prepared helmet face shield on the market.

### PINLOCK 70

The Pinlock 70 insert lens is enhanced with stronger fog resistant properties that increase the fog free endurance of the lens.

All Pinlock 70 insert lenses are made in a custom fit design, that ensures better fog resistance coverage.

# B2B WEBSITE

www.bikeittrade.com

A totally revamped B2B website, specifically developed for our dealer network to simplify product selection, increase order efficiency and maximise sales.

With more than **15,000 SKU's** and **30 brands**, our new B2B website has been commissioned to make the full Bike It product range easily viewable and accessible to our customers, creating a resource which dealers can use daily to quickly identify product, build baskets and submit orders efficiently.

Product categorisation has been fully restructured and simplified between **ROAD** and **OFFROAD** products, also by **SERVICING PARTS** and **ACCESSORIES**, making navigation around the site simpler and more effective.

Utilising the new **NUMBER PLATE LOOKUP** and **VEHICLE SELECTION** functions, dealers can speedily find all products relevant to a specific motorcycle allowing them to prepare for scheduled workshop services and repairs. These functions can also be used to show visiting customers in-store all parts and accessories available from the Bike It range for specific motorcycles.

A new versatile SKU search facility enables dealers to quickly spot-check products by order code to find key information about Product Details, Cross Reference with OEM and alternative codes, plus motorcycle Model Fitment.

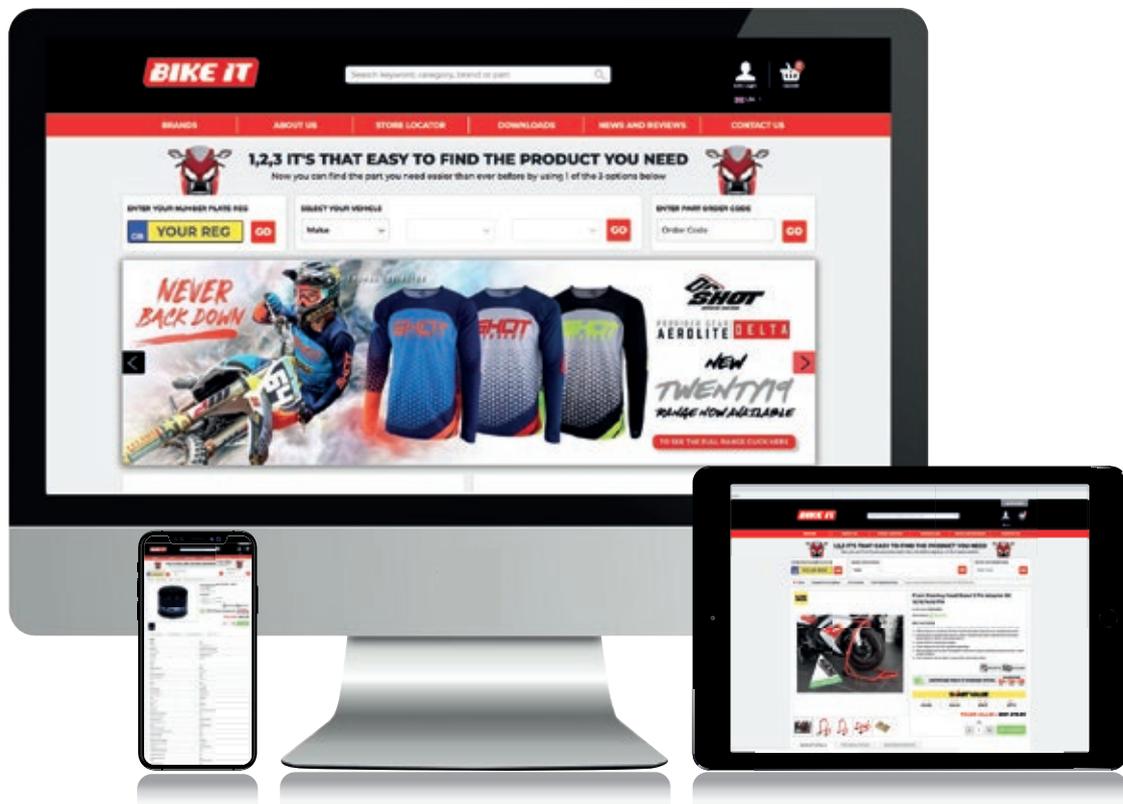

Whether using this function to check what a part in stock fits, confirming compatibility or cross-reference from OEM product, this SKU search ensures all required information is easily and readily at hand.

Newly implemented sales promotion functions will offer dealers the opportunities to access specific promotional products including Coupon Promotions and a dedicated SmartValue range.

These exclusive online promotions will be updated ongoing and enable dealers a fantastic opportunity to buy at the very best price.

With dedicated Downloads and News & Reviews areas our dealers can keep fully updated on new products and updates as they are released and access archives. Together with copies of news articles and reviews, brand partner news and race results from our sponsored race partners, this is a resource that dealers will find extremely useful.
